### Helpful tips:

- We suggest you set up a small informational table where you can display our flyers, posters, brochures and a laptop/iPad/computer with our website browser open for opportunities to donate and learn more.
- Who doesn't love food? In your Host Packet, you received a few recipes. Although you don't need to make them, we do suggest food and drinks are available at your party. You can do this by providing it yourself, asking friends to bring food or having it catered!
- Your guests would love to hear about your personal connection to Hands Offering Hope and what the organization means to you personally. Be sure to share your heart and the reason this matters to YOU!
